Basic Paving Stone Installation

This course designed to provide a basic understanding of all the aspects of a typical paving stone installation and is ideally suited for someone who has little or no knowledge or experience in paving stone installation. This course will cover all the basics and important facets of planning the project, placing/staging materials for maximum efficiency, excavation, and preparing the gravel base. Upon completion of all the lessons in this course, a Certificate of Completion can be printed for your records.

For fifty years, Unilock has been helping people create beautiful outdoor spaces that become treasured places to build lasting memories. It all started when our founder brought a revolutionary new paving method to North America, called the Uni-Stone. Since then, other companies have tried to follow in our footsteps, but Unilock remains the style and technology leader.
